# WDX SumiDrill Series Promotion

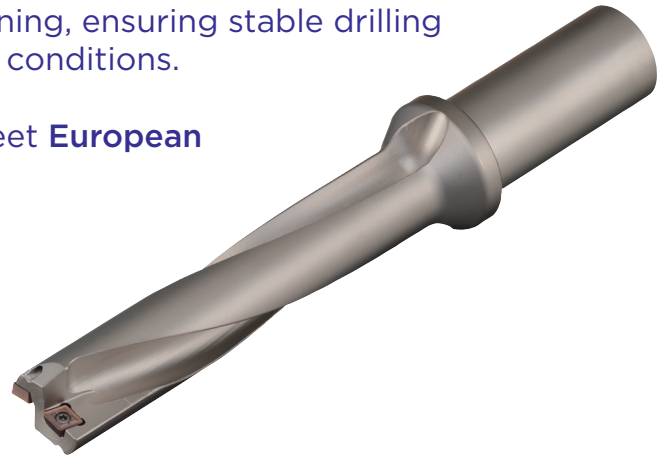

## Indexable insert drills

We are proud to be celebrating our **40th anniversary** in the manufacture of high-precision and efficient drills this year. To mark the occasion, we prepared a great promotion for you.

**We give you a special discount on a holder** from one of our popular series.

The **excellent cutting force balance** of the **indexable insert drill „SumiDrill“ WDX type** allows for versatile use in machining **structural steel, stainless steel, and aluminum alloys**. The selection of 3 optimally designed chip breaker types improves chip transport and enables better chip control. The cutting resistance is balanced by the inner and outer cutting edges during machining, ensuring stable drilling and reducing cutting forces even in challenging conditions.

The promotion only applies to products that meet **European standards**.

## What do you have to do to benefit from this special discount?

Buy **20 inserts** with your standard discount and receive a **2D/3D/4D holder** up to Ø 55 mm with a special discount of **-75%**.

- The promotion is valid from **January 15th to April 12th 2024**.
- The promotional price is valid **while stocks last**.
- All standard items in stock will be included in the promotion.
- Only orders of cutting inserts in **packaging units of 10 pieces** can be considered for the promotional discount.
